Professional Summary: Enthusiastic Full-Stack Developer with hands-on experience building scalable and secure web applications using React.js, Next.js, Node.js, and TypeScript. Proficient in developing responsive user interfaces, designing RESTful APIs, and implementing authentication systems, with a strong focus on clean, maintainable, and efficient code.

Experience: **Web Instructor || Shanto Marium University of Creative Technology (Software Club)** || 2025-Present

I am responsible for teaching and mentoring students in web development, guiding them through both fundamental concepts and practical project implementation.

Technical Skills:

Frontend: Tailwind CSS, JavaScript, TypeScript, React.js, Next.js
Backend: Node.js, Express.js, Rest APIs, Better Auth
Database: PostgreSQL, Prisma ORM, MongoDB

Projects

Multi-Vendor Medicine Selling Website | Live Link

• **Responsive web app for selling medicine • Firebase authentication with dynamic routing • Features: User, Admin, Seller**

Edemy | Live Link

• Full-stack e-learning platform enabling teachers to create, upload, and sell courses with integrated payment gateway and role-based dashboards (Teacher/Student).

• Features include course management, class uploads, ratings & reviews, secure authentication, and progress tracking for an enhanced learning experience.

Blog Server Backend | Backend Code Link

• Production-ready blog engine built with Node.js, Express 5, Prisma, PostgreSQL, and Better-Auth, featuring secure authentication, session management, and role-based access control (RBAC).

• Developed RESTful APIs with advanced filtering, nested comments with moderation, and a scalable modular architecture with optimized database indexing.
